MINISTER IS LIVING OVER SCHOOL DAYS

(By Associated Press.)

EUREKA, Cal., Feb. 7.—One of the regularly enrolled pupils at the Eureka high school is Rev. D. C. Lockwood, pastor of the First Methodist Episcopal church here. Every day, when the school gong rings, Mr. Lockwood, books under his arm, tramps into the schoolroom with the rest of the pupils and takes his seat.

The preacher is not a "special" student, but is taking a full course, several of his subjects being English drama, Spanish and glee club work. In addition, he says, he is taking another subject, "the psychology of the young idea." His work in this consists of studies of his classmates.

Students at the high school say Rev. Lockwood is a "regular fellow" and is ready to put on the boxing gloves with any of the boys who think they can "trim the preacher."

LARGE BODIES SPLENDID ORE NOW EXPOSED

The Orlean mine at Hornsilver gives promise of becoming one of the heaviest gold-silver producers in southern Nevada within a comparatively short time. The showing in the southeast drift from the 700 level, as well as in the wing that is being put down at a distance of 100 feet from the point where the crosscut entered the vein, 70 feet south east of the shaft, is highly encouraging. High-grade stringers of ore are showing in the southeast drift, with the full face carrying commercial values. In the bottom of the wing from the 700 level there is nothing but ore, and it is generally conceded that the show will be found to be persistent for a good distance.

H. H. KING, secretary-treasurer of the Orlean-Hornsilver Mining company, who is in Tonopah today, says that the general condition of the mine is better than at any time since the property passed to the present management. "We have a dump that is in a class by itself," remarked Mr. King, "and the entire contents will mill between \$15 and \$20 a ton. It is now a question of securing a mill for the treatment of the medium and low-grade ores, but that matter will be taken care of in the course of time. Throughout the various workings, and we have been carrying forward prospecting on several levels, large reserves of a fair grade of ore are showing, and it will not be a great while until a good working will be resulting for the treasury of the company."

Mr. King stated that the whole district is showing much activity and that with the advent of spring, the promises to be lived up to at Hornsilver. "A number of companies" continued Mr. King, "are making ready for active campaigns of exploration and it seems to be a foregone conclusion that several producers will be developed by early summer. There is a spirit of optimism prevailing that has not been witnessed in a long period in Esmeralda county, and the feeling is general around Goldfield that we are going to experience better times within the not far distant future."

THREE MINERAL SECTIONS ARE REPORTED ON

The Orlean and Simon mining districts are in Cedar mountain, a comparatively low range in Mineral county, west-central Nevada, about 20 miles northeast of Mina. The Orlean district contains the Olympic gold mine, which, although not a large mine, has for about six years yielded gold to the value of more than \$700,000. The vein ended against a fault and the owners have sought its continuation without success. The Simon district, about four miles south of Orlean, centers around the Simon mine, in which a large body of lead-silver ore has recently been developed. Both these districts have lately been studied by Adolph Knopf, a geologist of the United States geological survey, department of the interior, whose report, published as bulletin 725-H, may be obtained from the geological survey, Washington, D. C. Mr. Knopf gives an account of the geology of the districts and describes the mines and orebodies. He also discusses the fault at the Olympic mine and concludes that the movement was probably in the opposite direction from what had previously been supposed. If this conclusion is acted upon it will call for an entire change in the plan of operations to pick up the lost vein.

Round Mountain.

The Round Mountain district, in Nye county, has been a rather large producer of gold since 1906. The district is described in bulletin 725-I of the United States geological survey. The veins which occur in rhyolite of comparatively recent geological age, carry in places ore that is very rich in free gold. The veins

PERSONAL

W. H. DAVIS and wife of Benton, arrived here by auto last night.

L. F. CLAR, mining surveyor of Manhattan, is a business visitor to Tonopah.

W. P. MCARTHUR, president of the Super Six Mining company, is a visitor to Royston today.

F. J. CAVANAUGH, who was called to Bishop on account of the death of Mrs. Charles Wonnacott, arrived here this morning.

HARRY CUNNINGHAM, who is interested in the Betts lease at Royston, left this morning for that camp after a sojourn of a few days in Tonopah.

N. E. KERK, custodian of the property of the Louisiana Consolidated Mining company at Tybo, is a visitor to Tonopah.

WALTER WILSON, who is interested in mining at Royston, left this morning for that camp, after a visit of a few days in Tonopah.

WARREN DRAPER came in from Royston last night to spend a day with friends. He reports considerable activity at the super camp, where he is conducting a restaurant.

W. E. EDWARDS, manager of the Super Six Mining company, operating at Royston, left this morning for that camp to note progress of development.

JULIUS E. SMITH, manager of the Butler theatre, was a passenger this morning for San Francisco, where he will make a number of new bookings.

H. H. KING, secretary-treasurer of the Orlean-Hornsilver Mining company, left this morning for Goldfield after spending a short time here looking after business matters.

"IRVY" RUTMAN pulled out early this morning for Royston, where he has leasing interests on the Sunny side claim of the Hudson Mining company.

MRS. HARRY MCNAMARA, who has been on the coast for the last month with her husband, arrived home this morning. Mr. McNamara was detained in San Francisco on business, but will return in about a week.

There are two types. The gold in one is associated with quartz; that in the other, which is probably gold derived from pyrite, is embedded in iron oxide. The erosion of the veins has formed rich placers that surround the hill from which the camp takes its name. At first lack of water hindered placer mining but now a pipe line nine miles long, carried across Smoky valley, furnishes water that is used for hydraulic mining during a part of each year. Tunnels bearing veins occur in the same region. They belong to an earlier period of mineralization and consist of quartz veins in granite carrying the manganese tungstate haubnerite. Although worked to some extent during the war, these deposits are not now being mined.

NOTICE TO REPUBLICANS

All Republicans are invited to attend the banquet to be held at the Mizpah grill on Sunday, February 12, at 7:30 p. m., in commemoration of the anniversary of the birth of Abraham Lincoln, our martyred president. Addresses on the topic of the day by prominent Republicans will be heard. Again we say, all Republicans are invited to attend, and especially are the ladies included; also all citizens, both locally and state, who have voted the Republican ticket, as well as those who contemplate alliance with our party in the future.

Those contemplating attendance will please call at the office of J. G. Cramley on or before February 9 and secure tickets entitling them to a seat, as this procedure is necessary in order to know the number to make preparations for. Signed, BANQUET COMMITTEE, F. 310.

AMUSEMENTS

"AFTER THE SHOW" AT BUTLER THEATRE TODAY

Appealing, dramatic and at times highly pathetic is the theme of William DeMille's new Paramount production of "After the Show," which will be shown at the Butler today. The story, written by Rita Weiman, deals with the stage and the theatre, and Jack Holt, Lila Lee and Charles Ogle are the featured players. A musical comedy show in its entirety is one of the novel features of this production and a chorus of more than 50 girls appears in the scenes. The story deals with a young chorus girl, a millionaire "angel" for a musical comedy show and an old stage doorkeeper. The latter loves the girl as a father and when the millionaire makes love to her his suspicions are aroused. This results in dramatic developments when you will enjoy when you see "After the Show."

Admission to the program will be the same as the program.

KEWANAS SHARES SHOWING ADVANCE

According to reports received in Tonopah, the Kewanaw Mining company, at Goldfield has inaugurated an energetic campaign of development on the Nevada Eagles property, three miles west of that town and on the Manahat. Operations are being prosecuted on the 375-foot level of the shaft workings and crosscuttings have been started to pick up the orebody that undergirds such high-grade values on the 250 level. The Nevada Eagles is considered a property of great merit and since the property was taken over by the Kewanaw company the listed shares have been steadily advancing on the San Francisco exchange.

NOTICE

The holding engineers' license board will meet at the Nye county courthouse on Wednesday, February 8, at 4 o'clock P. M.

R. H. THOMAS,
Secretary.

MAYOR'S HEART IS UNAFFECTED BY PROPOSALS

(By Associated Press.)

FAIRPORT, O., Feb. 7.—Despite being delayed with marriage proposals during the first month of her incumbency of this little town, Dr. Amy K. Kankonen, youthful and pretty, claims she is still able to pay strict attention to the business of being mayor and that thus far her heart has resisted the efforts of her numerous suitors.

Asked for her views on marriage, the woman mayor replied: "As far as marriage goes I believe in only one kind; marriage that is the natural result of true love. Marriage does not interfere with a woman's career. If more people married for love and fewer for money and social position this world would be far happier."

"No, I have never been in love, but expect to be perhaps some day," Miss Kankonen naively concluded.
